

**DELHI PUBLIC SCHOOL, SUSHANT LOK  
ADVISORY**

Dear Parents,

02.11.18

With the pollution levels rising in our city, we are taking the following precautionary steps, to keep our children protected-

- Suspending morning assemblies and outdoor activities.
- Encouraging students to wear masks when they step out.
- Teachers talking to students about steps to reduce pollution.

Please ensure that your ward:

- Does not step out early in the morning and late in the evening.
- Avoids school in case of breathing difficulties
- Remains well hydrated and maintains proper hygiene
- Celebrates Green Diwali & says no to crackers as they also add on to pollution levels.

Wishing you & your family an Eco-friendly Diwali.
